

# A—N—N—U—A—L INDEX

This index reflects material in the 1989 issues of **RN**. Articles are listed alphabetically. Each entry gives the title, issue, and page number on which the article be-

gins. Articles from "Legally Speaking," "Nutritionist on Call," "Patient's Advocate," "**RN** at Home," "Sound Off!" and "Taking Charge" are entered by subject.

## **AIDS**

Advocacy for AIDS patients is helping all patients. May:65  
Drugs that keep AIDS patients alive. Feb:35  
Nursing and AIDS: A legal update. Mar:77  
The people who nurse people with AIDS. Dec:41  
Zidovudine: Flawed champion against AIDS. Jan:35

## **CARDIOLOGY/CARDIOVASCULAR SYSTEM**

A fresh look at assessing the elderly. June:28  
An uncommon condition that nurses can spot first. Aug:20  
Assessing a child's chest. Nov:26  
Chest pain: Your response to a classic warning. Apr:32  
EP studies: When they're called for, what they reveal. Feb:54  
Fighting heart disease by the numbers. June:69  
Precision moves that counter cardiogenic shock. May:52  
The high-pressure demands of compartment syndrome. Feb:22  
What's his ECG telling you? A guide for nurses. Feb:42  
When exercise can kill: How to spot IHSS. Sept:20

## **CARE PLANS**

Skin reactions to radiotherapy. June:27  
The patient with a biliary obstruction. Jan:57  
The patient with Lyme disease. Apr:30  
When the patient has an ileoanal reservoir. July:33  
When the patient has IHSS. Sept:26

## **CAREER DEVELOPMENT**

A full-time job for part-time nurses. June:18  
Facing down the fear of public speaking. Apr:19  
How to take nursing skills on the road. Jan:32  
Off-the-job conduct can jeopardize your career. Sept:69  
One way up:  
Find a need and meet it. Oct:61  
Make things happen. Oct:32  
Put your family first. Oct:57  
Ride the high-tech wave. Oct:37  
Take it step by step. Oct:49  
Onward and upward at the bedside. Dec:15  
Opportunity knocks at last. Oct:52  
Performance evaluations that help nurses grow. Feb:15

The buck starts here. Oct:28

## **CHARTING**

A quality-assurance tool that works overtime. Sept:30  
Assessment to discharge, this form does it all. July:36  
Time won't tell if that OB patient's out of danger. Aug:42

## **CRITICAL CARE**

(see also Cardiology, Respiratory)

Diabetes now: Preventing acute complications. Aug:34  
Nursing implications of today's burn care techniques. May:26  
Precision moves that counter cardiogenic shock. May:52  
The family has a role even during a code. Aug:15

## **DERMATOLOGY**

Radiation therapy: Saving your patient's skin. June:24  
What people expect you to know about poison ivy. Aug:23  
What's wrong with this patient? May:61

## **DIABETES**

Diabetes now:  
A three-pronged approach to monitoring. Mar:23  
Coping with chronic complications. Sept:34  
How to set up a diabetes education program. Nov:61  
Patient education makes all the difference. Nov:56  
Preventing acute complications. Aug:34  
Safe travel tips for the diabetic patient. Apr:51  
Tapping the full power of insulin pumps. June:46  
The new challenges of insulin therapy. May:34  
The risks and rewards of pancreatic transplant. July:54  
The role of diet and drugs. Apr:46

## **DISEASE**

(see also AIDS, Diabetes, Oncology)

Be ready for Lyme disease in your own backyard. Apr:26

Countering Parkinson's assault on your patient's will. Nov:34  
MRSA: An infection control crisis comes home. July:42  
The anemias: Causes and courses of action. Jan:24  
Part II. Mar:52  
Part III. May:42  
What's wrong with this patient? Nov:41  
Would a new diet help your gallstone patient? July:59

## **DRUGS**

Diabetes now: The new challenges of insulin therapy. May:34  
Diabetes now: The role of diet and drugs. Apr:46  
Drugs that keep AIDS patients alive. Feb:35  
Mandatory drug testing isn't the answer. June:100  
WARNING: Take only as directed. Oct:83  
When drug therapy causes diarrhea. Dec:32  
Your guide to the newest drugs. Mar:61  
Zidovudine: Flawed champion against AIDS. Jan:35

## **EDUCATION**

How you can use that federal report on nursing. Feb:61  
Those new nurses are a breath of fresh air. May:136

## **EMERGENCIES**

Diabetes now: Preventing acute complications. Aug:34  
Eye trauma: A close-up on emergency care. Dec:22  
Nursing implications of today's burn care techniques. May:26  
Precision moves that counter cardiogenic shock. May:52  
Would you know what caused these geriatric emergencies? Aug:26

## **ENDOCRINE**

Hypoglycemia: Separating facts from fads. Apr:81

# ANNUAL INDEX

The assessment factor most nurses forget.  
Mar:32

## EQUIPMENT

Are your IV chemo skills up-to-date? Jan:40  
A better way to deliver long-term oxygen therapy. Sept:58  
Caring for the patient with an epidural catheter. Dec:70  
Current trends in autologous blood transfusions. Nov:44  
Diabetes now: A three-pronged approach to monitoring. Mar:23  
Diabetes now: Tapping the full power of insulin pumps. June:46  
Getting your patient off a ventilator. Dec:60  
How to get the equipment you want. Nov:15  
Managing an implanted infusion device. Jan:45  
Why aren't more nurses using this valuable tool? Dec:54

## EYES, EARS, NOSE, AND THROAT

Diabetes now: Coping with chronic complications. Sept:34  
Eye trauma: A close-up on emergency care. Dec:22

## FAMILY

Adoptive parents need our support. Dec:19  
Helping a caregiver keep up the good work. Apr:87  
Make your patient's family part of the team. May:23  
The family has a role—even during a code. Aug:15  
When divorce complicates care. Jan:21

## GASTROINTESTINAL

Beyond ileostomy: Surgery for a normal life. July:29  
When drug therapy causes diarrhea. Dec:32  
When the bile duct is blocked. Jan:50  
Would a new diet help your gallstone patient? July:59

## GENITOURINARY

Detecting the hidden UTI. Jan:65  
Incontinence: The problem patients won't talk about. Mar:42

## GERIATRICS

A fresh look at assessing the elderly. June:28  
Helping a caregiver keep up the good work. Apr:87  
Incontinence: The problem patients won't talk about. Mar:42  
Would you know what caused these geriatric emergencies? Aug:26

## HEMATOLOGY

Current trends in autologous blood transfusions. Nov:44

The anemias: Causes and courses of action.  
Jan:24  
Part II. Mar:52  
Part III. May:42  
What's wrong with this patient? Nov:41

## HOME CARE

Caring for the patient with an epidural catheter. Dec:70  
Detecting the hidden UTI. Jan:65  
Good nursing gets COPD patients out of hospitals. July:24  
Helping a caregiver keep up the good work. Apr:87  
How to create patient education tools. Feb:77  
Keeping your patient's water level up. July:65  
Postop teaching for the colostomy patient. Mar:85  
The new risks of home care. Jan:59  
WARNING: Take only as directed. Oct:83  
When your patient tells you he can't sleep. Sept:79

## HOSPITALS

An open letter to hospital administrators. Feb:108  
Assessment to discharge, this form does it all. July:36  
A quality-assurance tool that works overtime. Sept:30  
Hospital closings and employee rights. Dec:67  
MRSA: An infection control crisis comes home. July:42  
Sometimes we have to play the bad guy. Oct:23  
The buck starts here. Oct:28  
Your assessments can boost your hospital's bottom line. Aug:59  
Why aren't more nurses using this valuable tool? Dec:54

## INFECTIONS

Be ready for Lyme disease in your own backyard. Apr:26  
Detecting the hidden UTI. Jan:65  
Drugs that keep AIDS patients alive. Feb:35  
Food poisoning makes a dangerous comeback. Oct:73  
Meningitis: Dangers when the Dx is viral. Aug:50  
MRSA: An infection control crisis comes home. July:42  
What's wrong with this patient? May:61  
Zidovudine: Flawed champion against AIDS. Jan:35

## IV THERAPY

Are your IV chemo skills up-to-date? Jan:40  
Managing an implanted infusion device. Jan:45

## LEGAL

Hospital closings and employee rights. Dec:67  
Let's put an end to malpractice panic. Apr:73  
Medical waste: It's not just garbage anymore. Aug:57  
Nursing and AIDS: A legal update. Mar:77

Off-the-job conduct can jeopardize your career. Sept:69  
Refusal to treat can be a crime. Oct:69  
Risks of surgery: Some are the nurse's. Nov:71  
Survival tactics for short-staffed units. June:61  
The new risks of home care. Jan:59  
Ways to pin down an employer's promise. May:74  
When a phone call is your liability lifeline. Feb:69

## MANAGEMENT

A full-time job for part-time nurses. June:18  
An open letter to hospital administrators. Feb:108  
Facing down the fear of public speaking. Apr:19  
How to get people to follow your lead. Jan:17  
How to get the equipment you want. Nov:15  
How to make time when you need it. Oct:19  
How to set boundaries without building walls. May:21  
Learn to hand off work gracefully. July:19  
Let's stop fighting in front of the kids. Sept:136  
No one nurses our patients but us. Aug:13  
Performance evaluations that help nurses grow. Feb:15  
We wanted a smoke-free workplace and we got it. Sept:13  
Winning strategies when the game is confrontation. Mar:18

## NEUROLOGY

A fresh look at assessing the elderly. June:28  
A hands-on rehab technique that really works. Nov:65  
Countering Parkinson's assault on your patient's will. Nov:34  
Diabetes now: Coping with chronic complications. Sept:34  
Meningitis: Dangers when the Dx is viral. Aug:50  
The assessment factor most nurses forget. Mar:32  
The high-pressure demands of compartment syndrome. Feb:22

## NUTRITION

Diabetes now: The role of diet and drugs. Apr:46  
Don't let weight gain keep a smoker from quitting. Feb:73  
Fighting heart disease by the numbers. June:69  
Food poisoning makes a dangerous comeback. Oct:73  
How safe are modified fasts? Nov:79  
Hypoglycemia: Separating facts from fads. Apr:81  
Is America really constipated? May:81  
Keeping your patient's water level up. July:65  
Spotting the patient who looks healthy but isn't. Mar:81  
Why tube feeding may be the wrong answer. June:43  
Would a new diet help your gallstone patient? July:59  
Your assessments can boost your hospital's bottom line. Aug:59

# ANNUAL INDEX

## OBSTETRICS-GYNECOLOGY

A nursing response to the teen pregnancy epidemic. Apr:22  
Cruel myths and clinical facts about menopause. June:52  
Don't these patients have a right to privacy? Mar:21  
Postpartum depression: Assessing risk, restoring balance. Aug:46  
Time won't tell if that OB patient's out of danger. Aug:42

## ONCOLOGY

Are your IV chemo skills up-to-date? Jan:40  
Children with cancer still deserve a childhood. Sept:15  
Managing an implanted infusion device. Jan:45  
Radiation therapy: Saving your patient's skin. June:24  
Two stages of care for pleural effusion. Feb:30

## ORTHOPEDICS

The high-pressure demands of compartment syndrome. Feb:22  
The hip: Nursing fracture patients to full recovery. Apr:56  
The hip: When the joint must be replaced. Apr:62

## OSTOMY

Beyond ileostomy: Surgery for a normal life. July:29  
Postop teaching for the colostomy patient. Mar:85

## PAIN

Caring for the patient with an epidural catheter. Dec:70  
Stoic or shouter, the pain is real. June:49  
What matters most in chronic pain management. Mar:46

## PATIENTS

A lesson in empathy. Nov:21  
Let patients be partners in their care. Feb:17  
Pity doesn't help patients. July:21  
Rx: Elvis! Sept:44  
Sometimes the best therapy has four legs. June:21  
Sometimes we have to play the bad guy. Oct:23  
The assessment factor most nurses forget. Mar:32  
When crisis intervention gets physical. Mar:36  
When divorce complicates care. Jan:21

## PATIENT TEACHING

A hands-on rehab technique that really works. Nov:65  
A nursing response to the teen pregnancy epidemic. Apr:22  
Beyond ileostomy: Surgery for a normal life. July:29  
Cruel myths and clinical facts about menopause. June:52

## A SPIRIT OF CARING THAT TRANSFORMS TOMORROW

Dedication, skill, compassion, hard work—they're qualities that enable St. Mary's Hospital to nurture and heal its patient community, to transform tomorrow into a happier, healthier time for thousands. Our 382-bed facility—one of the most technically advanced hospitals in south-east Florida—seeks RNs for:

• ONCOLOGY • ORTHOPEDICS • CORONARY/CRITICAL CARE • EMERGENCY • MED/SURG • O.R./REC • PEDIATRIC SPECIAL CARE UNIT (Pediatric Nurses with Critical Care experience needed for this new department.) • LABOR/DELIVERY AND PP • NEONATAL INTENSIVE CARE (Now featuring state-of-the-art single-room maternity care; will cross train.)

St. Mary's offers you a low patient/nurse ratio, excellent salaries commensurate with experience, availability of variable 8, 10 or 12 hour shifts, tuition reimbursement, a 28 day ETO/PIB program for compensated vacation/holiday/illness time, and a 4-week unit orientation. Health and life insurance is provided. Send resume to: **ST. MARY'S HOSPITAL, 901 45th St., P.O. Box 24620, West Palm Beach, FL 33416-4620, attn: Mitch Mongell, Professional Recruiter; tel. 1-800-822-6279.** Equal Opportunity Employer.

50 Years...Caring for Life  
1938 - 1988

## STATEMENT OF OWNERSHIP, MANAGEMENT, AND CIRCULATION

(Required by 39 U.S.C. 3685.)

1. Title of publication: RN. 2. Date of filing: Oct. 1, 1989. 3. Frequency of issue: monthly; Number of issues published annually: 12; Annual subscription price: \$35. 4. Complete mailing address of known office of publication: 680 Kinderkamack Road, Oradell, N.J. 07649. 5. Complete mailing address of the headquarters or general business offices of the publishers: same. 6. Publisher: Leon C. Hufnagel, Jr., 680 Kinderkamack Road, Oradell, N.J. 07649; Editor: Richard Service, 680 Kinderkamack Road, Oradell, N.J. 07649; Managing Editor: Catherine Caldwell Brown, 680 Kinderkamack Road, Oradell, N.J. 07649. 7. Owner: Medical Economics Company Inc., 680 Kinderkamack Road, Oradell, N.J. 07649. 8. Known bondholders, mortgagees, and other security holders: none. 9. Not applicable. 10. Average number of copies each issue during preceding 12 months: (a) Total copies printed: 313,575; (b) Total paid circulation: 282,096; (c) Free distribution by mail, carrier, or other means: 29,617 (d) Total distribution: 311,713; (e) Copies not distributed: 1,862; (f) Total: 313,575. 11. Actual number of copies of single issue published nearest to filing date: (a) Total copies printed: 310,171; (b) Total paid circulation: 275,000; (c) Free distribution by mail, carrier, or other means: 33,312; (d) Total distribution: 308,312; (e) Copies not distributed: 1,859; (f) Total: 310,171. Signed, certified correct and complete: Richard Service, Editor/Associate Publisher.

# ANNUAL INDEX

Diabetes now: How to set up a diabetes education program. Nov:61  
How to create patient education tools. Feb:77  
Incontinence: The problem patients won't talk about. Mar:42  
Patient teaching for X-ray and other diagnostics.  
Barium enema. Dec:39  
Cerebral arteriogram. Sept:55  
Computerized tomography (CT scan) of the head. Sept:51  
Myelogram. Sept:53  
Upper GI series and small bowel series. Dec:37  
The hip: When the joint must be replaced. Apr:62  
WARNING: Take only as directed. Oct:83

## PEDIATRICS

Assessing a child's chest. Nov:26  
Children with cancer still deserve a childhood. Sept:15  
Meningitis: Dangers when the Dx is viral. Aug:50

## PROCEDURES

Are your IV chemo skills up-to-date? Jan:40  
Current trends in autologous blood transfusions. Nov:44  
Getting your patient off a ventilator. Dec:60  
EP studies: When they're called for, what they reveal. Feb:54  
Managing an implanted infusion device. Jan:44  
Nursing implications of today's burn care techniques. May:26  
Patient teaching for X-ray and other diagnostics.  
Barium enema. Dec:39  
Cerebral arteriogram. Sept:55  
Computerized tomography (CT scan) of the head. Sept:51  
Myelogram. Sept:53  
Upper GI series and small bowel series. Dec:37  
Two stages of care for pleural effusion. Feb:30  
"What I didn't know really hurt me". Sept:49  
Will your patient survive that trip to X-ray? Apr:40

## PROFESSION

Advocacy for AIDS patients is helping all patients. May:65  
How much would you earn as an office nurse? Feb:26  
How you can use that federal report on nursing. Feb:61  
How well do nurses nurture themselves? May:39  
I can't be calm about nursing's image. Jan:108  
"If you scream, I'll kill you." Mar:35  
Let's clean up our language. Dec:112  
Let's start telling the rest of the story. Mar:132  
Let's stop fighting in front of the kids. Sept:136  
Onward and upward at the bedside. Dec:15  
Our actions down out our words. Aug:100  
RN pins—the stories they tell. Dec:50  
Where does all the money go—and how can nurses get more? Your guide to health-care economics. Oct:27  
The buck starts here. Oct:28  
Opportunity knocks at last. Oct:52  
What's your share? Oct:40

The people who nurse people with AIDS. Dec:41  
The perfect job. July:92  
When crisis intervention gets physical. Mar:36

## PSYCHIATRY/PSYCHOLOGY

Postpartum depression: Assessing risk, restoring balance. Aug:46  
Rx: Elvis! Sept:44  
Stoic or shouter, the pain is real. June:49  
These nurses answered Bobbie's "voices." July:50  
When divorce complicates care. Jan:21

## RESPIRATORY

A better way to deliver long-term oxygen therapy. Sept:58  
Assessing a child's chest. Nov:26  
Getting your patient off a ventilator. Dec:60  
Good nursing gets COPD patients out of hospitals. July:24  
Two stages of care for pleural effusion. Feb:30

## SEX

A nursing response to the teen pregnancy epidemic. Apr:22  
Cruel myths and clinical facts about menopause. June:52

## STAFFING

Martyrs send the wrong messages. Apr:140  
No one nurses our patients but us. Aug:13  
Survival tactics for short-staffed units. June:61

## SURGERY

Beyond ileostomy: Surgery for a normal life. July:29  
Risks of surgery: Some are the nurse's. Nov:71  
The hip: Nursing fracture patients to full recovery. Apr:56  
When the joint must be replaced. Apr:62  
The risks and rewards of pancreatic transplant. July:54

## SURVEYS

How much would you earn as an office nurse? Feb:26  
How well do nurses nurture themselves? May:39  
What's your share? (biennial salary survey) Oct:40

## TESTS

EP studies: When they're called for, what they reveal. Feb:54  
Patient teaching for X-ray and other diagnostics.  
Barium enema. Dec:39  
Cerebral arteriogram. Sept:55  
Computerized tomography (CT scan) of the head. Sept:51  
Myelogram. Sept:53  
Upper GI series and small bowel series. Dec:37

"What I didn't know really hurt me". Sept:49  
What's his ECG telling you? A guide for nurses. Feb:42  
Will your patient survive that trip to X-ray? Apr:40

## WOUNDS AND INJURIES

Diabetes now: Coping with chronic complications. Sept:34  
Nursing implications of today's burn care techniques. May:26
